Abu Dhabi Global Health Week, hosted by the Abu Dhabi Department of Health, is a global forum dedicated to advancing the future of health and well-being.

This transformative event unites industry leaders, policymakers, practitioners and innovators from across the healthcare sector to share critical insights and explore cutting-edge technologies that will drive meaningful, lasting change to health on a global scale.

Organising Abu Dhabi Global Health Week reflects Abu Dhabi's commitment to supporting and encouraging investment in research and development in health and life sciences by reinforcing cooperation and strategic partnerships between the public and private sector.

His Highness Sheikh Khaled bin Mohamed bin Zayed Al Nahyan
Crown Prince of Abu Dhabi and Chairman
of Abu Dhabi Executive Council

Conference

A global platform for healthcare innovation

The 2025 edition of Abu Dhabi Global Health Week is your gateway to transformative discussions and groundbreaking ideas, anchored by The Forum @ ADGHW, the flagship conference, and complemented by the vibrant, interactive Live Stage on the exhibition floor.

Conversations at both The Forum @ ADGHW and on the Live Stage will be centred around the four core pillars of transformation:

Key pillars

Longevity and Precision Health

Personalising the Future of Medicine

Digital Health & AI

Revolutionising Care Through Technology

Health System Resilience & Sustainability

Personalising the Future of Medicine

Investment in Life Sciences

Driving Global Innovation Forward

Impact through engagement

The conference creates a unique environment for transformative collaboration, where industry leaders engage directly with policy architects to drive meaningful change. Through collaborative dialogue, innovative solutions emerge to address global healthcare challenges. These interactions foster the formation of strategic partnerships that strengthen healthcare systems worldwide, ensuring lasting impact across communities and borders.

Abu Dhabi Global Health Week 2025 Conference Features

Over a multi-faceted programme of keynote speeches and interactive sessions, the additional thought leadership experiences offer attendees access to the latest healthcare insights.

FORUM @ ADGHW

At the heart of Abu Dhabi Global Health Week is The Forum @ ADGHW, the flagship conference and cornerstone of the event. This exclusive three-day conference features keynote speeches, panel discussions, and one-on-one conversations from leading minds in healthcare.

This dynamic platform delves into critical themes in redefining health and well-being, offering actionable insights to drive impact at the individual, community, and global levels.

Delegates will engage in a diverse range of sessions designed to exchange insights and address the most pressing challenges in health. Focused on fostering collaboration, responsible innovation, and investment, the forum brings together researchers, policymakers, healthcare specialists, investors, and entrepreneurs from across disciplines and geographies to ensure a holistic approach to advancing health and well-being.

A delegate pass is required to access this premier event.

LIVE STAGE SESSIONS

Complementing The Forum @ ADGHW is the Live Stage, a vibrant, interactive feature on the exhibition floor. Open to all, it delivers an engaging mix of presentations, panel discussions, case studies, fireside chats, and technology showcases.

As a dynamic hub of innovation, the Live Stage fosters collaboration, explores groundbreaking ideas, and envisions the future of healthcare—all accessible without a delegate pass.

“

We are setting the stage for a seismic shift from healthcare to health. A proactive approach focused on holistic personalised wellness. At Abu Dhabi Global Healthcare Week, we want to champion this vital transition together.

H.E. Mansoor Al Mansoori

Member of the Abu Dhabi Executive Council,
Chairman of the Department of Health

Join a global collaboration shaping the future of health

Abu Dhabi Global Health Week, hosted by the Abu Dhabi Department of Health, united leaders from across the healthcare sector to collaboratively envision a more innovative and dynamic future for global health.

The inaugural edition emphasised the paradigm shift from simply treating illness, to prioritising disease prevention and keeping people healthy.

Abu Dhabi Global Health Week 2025 will be bigger and better, uniting influential policymakers, leaders, innovators, and disruptors in a borderless collaboration to advance sustainable and transformative solutions for global health.

The 2025 event promises to share critical insights and new technologies committed to moving **towards longevity, redefining health and well-being**, and is projected to attract:

15,000

International attendees

1,900

Conference delegates

150

Pioneering exhibitors

200

Visionary speakers

90

Participating countries

85

Insightful sessions

20

Ministers & ambassadors

Abu Dhabi Global Health Week is part of an ongoing, borderless collaboration dedicated to fostering innovation and advancing sustainable, transformative solutions for global health and well-being.

Abu Dhabi has a track record of excellence and fast-growing, future-forward, data-enabled healthcare services. A platform such ADGHW spearheads global effort to accelerate innovation and the development of novel approaches while making proactive health based on predication, prevention and early intervention a global priority.

H.E. Dr. Noura Al Ghaithi

Undersecretary
Department of Health, Abu Dhabi

Explore Abu Dhabi Global Health Week 2025

With two thought leadership conferences, a live stage, a global exhibition and many features and activations, Abu Dhabi Global Health Week 2025 is packed with opportunities to inspire, educate, and connect global healthcare professionals.

Forum @ ADGHW

As the premier gathering for visionary leaders, innovators, and experts in the global healthcare ecosystem, the Forum @ ADGHW sets the stage for transformative dialogue and collaboration. This year, we explore the frontiers of health and wellness through four pivotal themes that shape the future of healthcare delivery and innovation.

Limited availability – Delegate pass required

Women in Health Leadership

Women in Health Leadership highlights the vital role of women in shaping healthcare. It brings together female leaders to share strategies for overcoming barriers, fostering mentorship, and driving gender inclusivity, ultimately empowering the next generation of healthcare leaders.

Exclusive access – By invitation only

Live stage

A dynamic platform featuring live demonstrations, expert talks, and interactive Q&A sessions. Attendees can witness real-time innovations, engage with top professionals, and gain first-hand knowledge of the latest healthcare technologies and practices.

Open access – Free to attend

Focus sessions & roundtables

Specialised forums focusing on niche areas such as telemedicine, mental health, paediatric care, and chronic disease management. These sessions offer hands-on learning, practical demonstrations, and in-depth discussions tailored to specific interests and fields.

Open access – Free to attend

Global exhibition

A space dedicated to showcasing the latest healthcare products, technologies, and services. Participants can explore cutting-edge solutions, interact with exhibitors, and discover new tools and innovations.

Open access – Free to attend

HealthBeats podcast lounge

Taking place live from the show floor, the HealthBeats podcast lounge will interview change-makers from across the healthcare ecosystem who are shaping the future of the industry. Insights will appeal to healthcare professionals, academics, policymakers, investors, inventors, innovators, and many more.

Limited availability

Networking opportunities

Numerous opportunities to connect with peers, industry trailblazers, and future business partners. Whether through dynamic, structured events or casual meetups, you'll build meaningful relationships and spark collaborations that could shape the future of health.

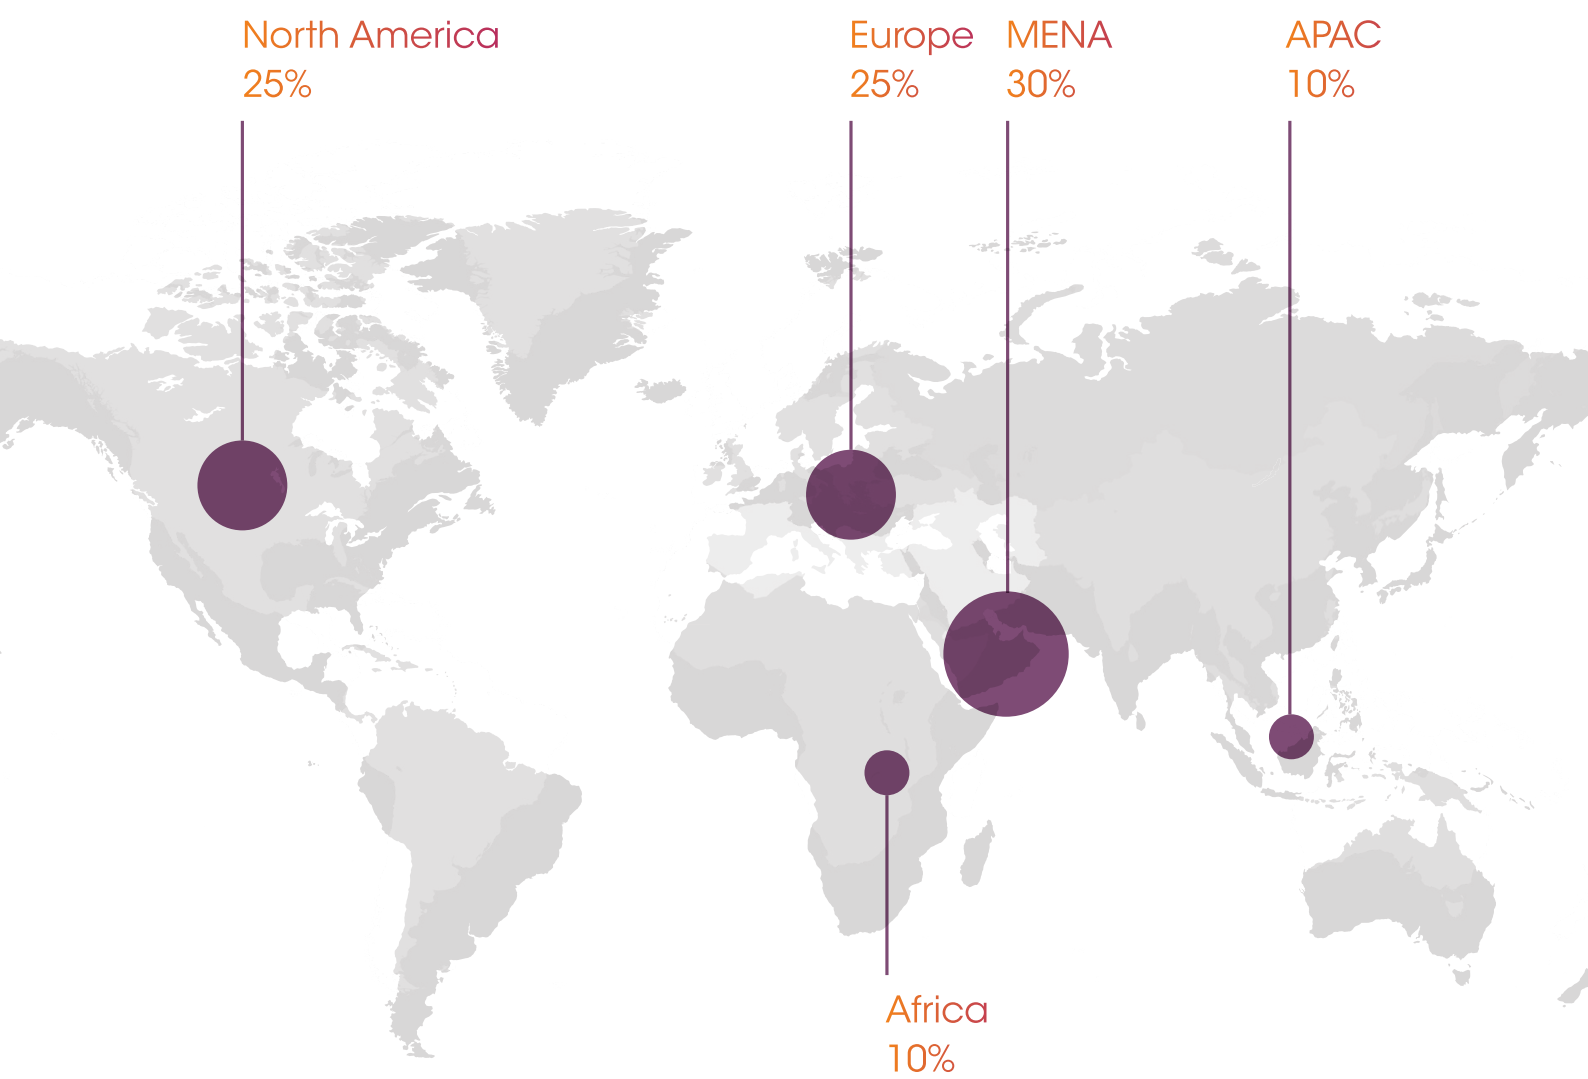

Open access – Free to attend

Who will you meet at Abu Dhabi Global Health Week?

Abu Dhabi Global Health Week is the ultimate convergence point for those working across the entire healthcare ecosystem, projected to attract over 15,000 people from around the world.

Nature of business breakdown

From healthcare practitioners all the way up to government and executive leadership, people attend Abu Dhabi Global Health Week to engage in important dialogue and gain insights into the new technologies that are transforming the future of health worldwide. The inaugural edition had representation from:

Attendees by seniority

Abu Dhabi Global Health Week has cemented itself as a critical forum for the future of healthcare, with 79% of the delegation having decision making authority and purchasing power.

Book Your Delegate Pass

The delegate pass offers access to high-level conference sessions where global healthcare visionaries and innovators discuss how we can tackle the world's greatest healthcare challenges.

- Associations
- Regulatory, government & policymakers

Supply chain, procurement and logistics

- Contractors / procurement & supply chain services

Technology, innovation and digital health

- Innovators, start-ups & scale-ups
- Medtech executives
- Technology & digital health experts
- Technical & laboratory managers

Research, academia and development

- Academics
- Scientists
- Research & development specialists
- Futurologists

Pharmaceutical and medical devices

- Pharmaceutical companies & industry representatives
- Medical device & diagnostic companies
- Pharmacists
- Medical & laboratory specialists

Finance, strategy and investment

- Finance & investment specialists
- Strategists
- Entrepreneurs

Other

- Data analysts
- Emergency relief organisations
- Influencers

For a more in-depth audience breakdown, download the 2024 post-show report [here](#).

Healthcare to health reflects one of WHO's key priorities, to support all countries to make a paradigm shift from merely treating illness to keeping people healthy and preventing disease. That means addressing the reasons people get sick, in the air they breathe, the food they eat, the water they drink, the products they consume and the conditions in which they live and work. Making this paradigm shift means health is not just the responsibility of the health sector, but of every sector, including the private sector.

Dr Tedros Adhanom Ghebreyesus
Director General, WHO

Exhibitor profile

Abu Dhabi Global Health Week 2025 offers a unique chance to connect with healthcare innovators, forge valuable relationships, and gain insights that will influence the future of healthcare delivery and management.

98% rate Abu Dhabi Global Health Week as an important platform for business

96% met or exceeded their objectives

92% booked onsite or confirmed plans to participate in 2025

Showcasing cutting-edge innovations and solutions in targeted product sectors:

Biotechnology

Digital health

Health technology

Pharmaceuticals

Healthcare infrastructure/assets

Medical equipment/devices/services

Laboratory precision medicine

IT systems solutions

Global exposure with country pavilions

Country pavilions at Abu Dhabi Global Health Week 2025 are an exclusive opportunity for countries and international organisations to spotlight their healthcare breakthroughs, strategic reforms and visionary solutions.

These dedicated spaces will promote international collaboration, uniting leading organisations, trade associations and institutions from across the globe.

It's an unparalleled opportunity to present advanced healthcare solutions and innovations, with representation from:

- | | |
|---|--|
|  Canada |  South Korea |
|  France |  Russia |
|  Germany |  Saudi Arabia |
|  India |  United Kingdom |
|  Italy |  United States |

Cutting-edge conferences transforming health: key pillars

Abu Dhabi Global Health Week's conferences amplify the voices of those shaping global health.

Through keynotes, panels, and live sessions, these strategic conferences offer healthcare leaders the chance to address major challenges and opportunities in creating a global, sustainable and resilient healthcare network. The 2025 conferences will focus on the following four core themes.

Register your interest in attending as a delegate today.

1. Longevity and precision health: Personalising the future of medicine

Remarkable advancements in healthcare are set to extend and enrich human life. This theme centres on the revolutionary potential of precision medicine and genomics, enabling tailored treatments that address individual needs. Innovative breakthroughs in synthetic biology and therapeutics provide fresh solutions for previously difficult-to-treat conditions. At the heart of these discussions lies the One Health approach, which underscores the essential connections between human, animal, and environmental health, advocating for comprehensive wellness strategies that promote a healthier, longer-living global population.

2. Health system resilience & sustainability: Crafting future-ready frameworks

In an era defined by rapid change, the demand for resilient and adaptable health systems is more critical than ever. This theme confronts the challenges of designing sustainable healthcare infrastructures capable of meeting future demands. Insights into pioneering public health initiatives and sustainable economic models are shared, poised to reshape healthcare delivery. The evolving landscape of medical education and workforce development is also examined, alongside the vital roles of health equity and philanthropy in creating inclusive systems that effectively serve diverse communities.

1

2

3

4

3. Digital health & AI: Revolutionising care through technology

Transformative digital health technologies and artificial intelligence are reshaping healthcare delivery. This theme showcases cutting-edge advancements in AI-driven solutions and health data analytics that revolutionise patient care and streamline healthcare processes. Engaging discussions explore how to navigate the balance between innovation, data privacy, and security, ensuring these technologies enhance care rather than complicate it. Embracing digital transformation is essential for redefining the global health landscape and improving outcomes.

4. Investment in life sciences: Driving global innovation forward

Extensive opportunities for investment within the rapidly expanding life sciences sector worldwide are revealed in this theme. It underscores the importance of fostering a supportive regulatory environment while highlighting collaborative research initiatives and strategic partnerships that drive innovation. Sessions focus on identifying impactful investment prospects that promise not only financial returns but also enhanced access to cutting-edge healthcare advancements for diverse populations globally. This theme aims to inspire a collective commitment to advancing health outcomes through strategic investments that benefit all.

Forum @ Abu Dhabi Global Health Week

Forum @ ADGHW explores precision health, resilient systems, AI-driven care, and life sciences investment to shape the future of global healthcare.

Limited availability
Delegate pass required

A three-day conference featuring keynote speeches, panel sessions, and discussions that provide valuable platforms to exchange insights and address the most significant challenges in redefining health and well-being. Focused on creating impact on an individual, community, and global level, delegates at The Forum @ ADGHW will accelerate collaboration, responsible innovation, and investment among researchers, policy makers, healthcare specialists, investors, and entrepreneurs from across disciplines and geographies, ensuring a holistic approach to the advancement of health.

Key themes addressed

- Longevity and precision health:
Personalising the future of medicine
- Health system resilience and sustainability:
Crafting future-ready frameworks
- Digital health & AI:
Revolutionising care through technology
- Investment in life sciences:
Driving global innovation forward

I genuinely believe that this is the unique moment where we can now foresee a world where we can deal with the big drivers of disease. And technology is the integrator of that.

Sir. Jonathan Symonds
Chair
GSK

Global Insights Sessions

Through strategic networking and focused knowledge exchange, this dynamic platform empowers healthcare leaders to forge partnerships that drive impactful, cross-border change.

Open access
Free to attend

The Global Insights Sessions bring nations together to transform healthcare on a prestigious global stage. Here, countries showcase healthcare achievements and innovations that improve lives locally and globally.

Each curated presentation highlights real-world successes from national healthcare systems. Health ministers, institutional leaders, and healthcare pioneers demonstrate breakthrough initiatives that have revolutionised regional care—from public health programmes to cutting-edge technology, every insight offers adaptable, practical solutions.

The programme drives three essential outcomes:

- Active collaboration: Nations connect to co-create solutions and launch joint initiatives.
- Proven solutions: Leaders share tested approaches with measurable results.
- Global implementation: Successful innovations gain new applications across healthcare systems.

We aim to evolve from hindsight to insight, and ultimately to foresight. This progression leads us to the exhilarating possibilities of predictive analytics where we not only predict future outcomes but also prescribe proactive measures.

Dr. James Mault
CEO
BioIntelliSense

Live stage sessions

The live stage will be the dynamic heart of Abu Dhabi Global Health Week 2025, offering an immersive experience on the exhibition floor. This interactive platform will bring together the groundbreaking ideas and thought-provoking discussions in healthcare.

Over three exciting days, the live stage will deliver diverse content, including insightful presentations, panel discussions with industry pioneers, captivating case studies, engaging fireside chats, and cutting-edge technology showcases.

As a dynamic hub of innovation, the live stage will unveil new possibilities in healthcare, forge collaborations, and help envision the future of healthcare alongside key stakeholders.

Open access
Free to attend

Focus sessions & roundtables

As part of Abu Dhabi Global Health Week, these sessions will offer an immersive exploration into specialised healthcare topics. These focus sessions will allow participants to explore the intricacies, challenges, and latest advancements within selected subject areas.

Open access
Free to attend

The focus sessions will facilitate robust discussions, knowledge sharing, and collaboration among healthcare professionals, researchers, policymakers, and stakeholders. Attendees can expect interactive presentations, case studies, panel discussions, and Q&A sessions led by renowned experts in various specialty fields.

By dedicating focused time to specific healthcare domains, the satellite sessions will provide a comprehensive understanding of a wide range of topics, enabling participants to explore complexities, nuances, and emerging trends. Whether addressing cutting-edge research, innovative treatments, healthcare technologies, or policy implications, the agenda will empower attendees with actionable insights and practical strategies to drive meaningful progress and improve patient outcomes.

Abu Dhabi Global Health Week is a great mix of both policy-oriented programmes, combined with academics, so there's an element of scientific rigour. And the bit that has got me most excited is the entrepreneurial spirit, bringing in people who think about solutions in a much more agile and dynamic way. It's a combination of bringing different people from different backgrounds into one single event.

Dr. Videha Sharma
Co-founder and Clinical Innovation Lead
University of Manchester

Abu Dhabi Global Healthcare Week is a place for learning and collaboration unlike any other. There was an amazing spread of speakers both locally and internationally, and this is an opportunity for those who are interested in these areas to learn from the best and brightest.
